## foreword

The OMDis Town Transform Agency's mandate is to proactively accelerate economic diversification away from mining, we do this alongside other Town Transformation Stakeholders. Our mandate includes:

- 1) Support existing businesses to become more sustainable
- 2) Develop new SMEs and a culture of entrepreneurship
- 3) Create new large industry platforms that can support the economy independent from mining

This directory compiled OMDis serves as a vibrant showcase of the dynamic businesses that have become the heartbeat of our town. Each entry represents not only the entrepreneurial spirit but also their commitment to contributing to the ongoing evolution of our local economy.

From charmin boutiques to innovative tech startups, community-inspired day-care centres, cosy cafes and cutting-edge service providers, it is our hope that the Oranjemund Business Directory will not only serve as a practical resource for finding the products and services you need but will also foster a sense of pride and support for the incredible businesses that call Oranjemund home. We extend our heartfelt gratitude to the local businesses for their cooperation and dedication while compiling this directory. Their commitment, along with our valued stakeholders, Namdeb, OMD 2030 and The Oranjemund Town Council, contributed significantly to showcasing our local businesses and reflecting a shared vision for a thriving town.

# Accelerating Economic Development

Diversification of a remote, single-industry town does not happen organically. To this aim, OMDis was created as a section 21 special purpose vehicle. Governed by a Board, OMDis' small team is lead by a General Manager and seed funded by Namdeb. The team's core activities include; economic research, industry and business case development, funding, investment facilitation and SME Development.

For more information on investment opportunities in the following industries, contact **OMDis: +264 63 234 344** or visit **www.omdis.co**

## WHO WE ARE

OMD2030 is an independent community association and a partner in the Town Transformation Programme. The organisation works closely with OMDis and other stakeholders to drive the Town Transformation process. Their aim is to encourage and facilitate citizenry involvement in co-creating a resilient, sustainable, economically diverse and rich town by implementing community projects such as grassroots tourism activities, community engagement and activation and environmental education. OMD2030 prides itself on social sustainability by evidently branding Oranjemund for the future. Their organisational structure is intended to conserve, integrate and diversify.

## MISSION

To encourage and facilitate active citizenry involvement in co-creating a resilient, sustainable, economically diverse, and culturally rich town.

## HOW WE DO THIS

### By implementing community projects in the following areas:

- Tourism (OMD2030 is the face of Oranjemund Tourism)
- Community Engagement & Activation
- Town for Tomorrow & Environmental Education

## TOWN TRANSFORMATION – WHO IS INVOLVED

### Oranjemund Town Council

- Land & service provision
- Create investment friendly environment
- Local economic development
- Public tourism infrastructure & compliance

### OMD 2030 – Citizenry Association

- Community engagement & activation
- Resilience
- Face of Tourism
- Environment & social sustainability
- Town branding

### OMDis

- Supporting existing businesses to be more sustainable
- Develop new SME's and entrepreneurial culture
- Create new large industries
- Capacity building
- Town branding

A NAMIBIA DE BEERS PARTNERSHIP

### Namdeb & other enablers

- Management of risk associated with mine closure
- Private property ownership
- Organic development

## ORANJEMUND TOWN COUNCIL

The Oranjemund Town Council is a key stakeholder in the Town Transformation process. The council strives to foster a vibrant, inclusive and sustainable community that enhances the quality of life for all residents. Committed to transparent governance, innovative solutions and collaborative engagement, the Oranjemund Town Council is strongly dedicated to being a model town council that empowers community members, supports businesses and preserves the unique character of our town. To ensure economic prosperity, the council actively supports a thriving local economy by promoting business growth, attracting investment and facilitating opportunities for innovation. As collaborators for the Town Transformation Project, its goal is to collectively create a diverse and resilient economic landscape that benefits both residents and businesses.

# NAMDEB

A NAMIBIA DE BEERS PARTNERSHIP

## GOOD TODAY. BETTER TOMORROW.

*Namdeb's life of mine extension to 2042 contributes to enhancing socio-economic development of the town of Oranjemund and the surrounding communities in the Karas Region and Namibia at large. Aligned to its new strategy and the new added value of sustainability, Namdeb continues to explore and implement ways to ensure a better tomorrow for generations to come.*

### OVERVIEW

Namdeb's history dates back to 1920 when diamond mining companies along the Orange River were amalgamated to form Consolidated Diamond Mines (CDM). In 1994 CDM entered into a new partnership with the Namibian Government and Namdeb was formed. Today, Namdeb Diamond Corporation is a wholly owned subsidiary of Namdeb Holdings (PTY) Ltd, which is a 50:50 joint venture between the Government of the Republic of Namibia and De Beers. Namdeb Holdings has long-term mining concessions in the southwest of Namibia both on land and offshore, adjacent to the Orange River and in the shallow waters off the coast. Diamond exploration and mining takes place along the south-western coast and inland areas of Namibia's //Karas Region. The main land-based operations take place around the town of Oranjemund and in satellite mines along the Orange River. The Town Transformation strategy has also provided for the establishment of the OMDis Town Transformation Agency (OMDis) and the OMD2030 community organisation. Both companies are registered as Section 21 companies (not-for-profit) and operate independently from each other and were established to drive the strategy in collaboration with the OTC & Namdeb. In addition, OMDis and OMD2030 are governed by their own independent boards but are currently still financially reliant on Namdeb.

### ON DIAMONDS WE BUILD

Since its inception in 1994, Namdeb has lived up to the notion of "On Diamonds we build" and continues to be one of the most significant role players in the Namibian diamond mining industry. Strengthening collaboration and partnerships to deliver on socio-economic progression for the Oranjemund Town Transformation programme remains a core focus. To ensure a brighter future, Namdeb will continue to partner for thriving communities, protect the natural world, accelerate equal opportunities and play a key role in leading ethical practices across the industry (Building Forever) long after the last diamond has been recovered in pursuit of Mining for Good.

### PARTNERING FOR THRIVING COMMUNITIES

The livelihoods work undertaken by Namdeb is incorporated in Oranjemund's Town Transformation Strategy. The Town Transformation Strategy was formulated as a result of collaboration with the Oranjemund Town Council and the wider town community. The strategy and plan aims to change Oranjemund from a Namdeb-owned and managed town dependent on mining, to a normal, self-sustaining town with a diversified economy. The Town Transformation Strategy has three focus areas: Transfer (transferring the municipal services and infrastructure to the Oranjemund Town Council (OTC) and normalising private property ownership), Transition (normalising healthcare and education in the town), and Transform (enabling diversification of the economy to become sustainable beyond mining). The strategy has to date resulted in the OTC taking over the ownership and management of, and the responsibility for all municipal infrastructure and services in the town. It has enabled the sale of residential properties to private individuals and the establishment of a public primary and a public secondary school through collaboration between Namdeb and the Ministry of Education, Arts and Culture as part of finding a sustainable long-term solution to schooling in Oranjemund. In addition, Namdeb will continue to partner with key stakeholders to improve health and education outcomes. This subsequently increases livelihood opportunities, supports community resilience and enhances opportunities for economic diversification that contribute to the stability and growth of the local economy and Namibia at large. The Town Transformation strategy has also provided for the establishment of the OMDis Town Transfer Agency (OMDis) and the OMD 2030 community organisation. Both companies are registered as Section 21 companies (not-for-profit) and operate independently from each other. They were established to drive the strategy in collaboration with the OTC and Namdeb. OMDis and OMD 2030 are governed by their own independent boards but are currently still financially reliant on Namdeb.
